INDEX TO VOL. XVII.

A.

Acid in Tomatos, 115 Acidulous Sulphate of Iron, 203
Acworth Minerals, 354 Agenda Geognostica, 200
Air, compression of, 38 Albany Institute, 208 Transactions of, 415
Allen's Mechanics, review of, 338 Almanac, American, &c. 416
America, early discovery of, 411 Analysis of Titaniferous Iron, 42
Analysis of Tennessee Meteorite, 326 Anthophyllite of Haddam, 144
Antiquities of Peru, 116 Architecture in the United States, 99, 249
Arctic Regions, Geology of, 1 Magnetism of, 145
Aspartic Acid, 173 Aspartates, 174
Astronomical Observations at Greenwich, 409
Astronomy, elementary works on, 199 Atmosphere, composition of, 382
Attraction, liquid, the principles of, 86

B.

Bear Lake River, Geology of, 3
Belemnites, cutaneous appendages of animals, 184
Biography of Sir H. Davy, 217 Bituminous Coal, origin of, 397
Blake, Eli W., on the manufacture of Steel, 111
——— on blasting of rocks, 134 Blasting of rocks, danger in, 132
Blowpipe, second edition of Berzelius on, 411
——— simplified, 163 Bones, preservation of, 169
Boracic Acid reduced by hydrogen, 176
Botany, introduction to the study of, 414 Brown's active Molecules, 390
Bryant, Mr. on a stroke of lightning, 193

C.

Calculus, mathematical, fundamental principles of, 74
Caoutchouc, in sheets, 399 Catalogue of Plants, 199
Catlin, Dr. on blasting Rocks, 132 Cement, a new fusible one, 81
Charring wood, a new mode, 395 Chemical action of Light, 376
Chemical solutions, influence on vegetation, 388
Chlorate of Potash, method of preparing, 408
Chlorine, test for the strength of, 170 Cinchona, remarks upon, 388
Clemson, T. G. analysis of Iron ore by, 42
Cloth, preservation of, 184 Columbite of Acworth, 387
Compression of air, 38 Conductibility conferred by water, 165
Conwell, Dr. on Tobacco, 369
Copal varnish, soluble in alcohol, 175 Copper Mine River, Geology of, 7
Corrosive Sublimate, detection of, 181
——— ——— decomposition of, 385
Couzeranite, a new mineral, 183 Crayons, red, manufacture of, 187
Crystallization of Salts, 373
———, circumstances influencing it, 383
Cyclopædia, Pocket, Guy's, 412

D.

Danger in blasting rocks, 132
Davy, Sir H. biography of, 217
———, death of, 157 Daubeny, Prof. letter on mineral springs, 407
Diamond, remarks upon, 372 Diluvial Furrows, 408
Distillation of wood, 175 Divisibility of matter, 184
Doolittle, Mr. mode of making charcoal by, 395

E.

Eaton, Prof. Geological Prodromus, 63
———— Remarks, 334
Eaton galena, 196 Educational Beneficence, 394
Electrical Focus, some effects of, 383 Electricity of Solar Rays, 391
Electro-galvanic phenomena, 192 Encyclopædia Americana, 413
Europe, Northern, Geology of, 16

F.

Faust, Edwin D. on the Peroxide of Hydrogen, 34
Ferro-silicate of manganese in Rhode Island, 142
Fluxions, solutions in, 69, 329 Foreign Books, 201
Foundling Hospitals, 393
Fredonia, lighted by natural gas, 398
French eggs and apples, 193

G.

Galvanic Battery of Watkins, 162 Gas lights, natural ones, 398
Gazlay, S. Rev. on the origin of Coal, 397 Gelatine, use of, 169
Geology of Arctic Regions, 1
———— sand formation of New Jersey, 274
Geological Prodromus of Prof. Eaton, 63
———— formation of an island, 197
———— remarks by Prof. Eaton, 334
———— Society, gifts to, 202
Geometry, elements of, 416 German collections of minerals, 400
Gold Formation of N. Carolina, 400 Gold in Maryland, 202
Greenland, Geology of, 14 Griscom, Prof. extracts by, 161
Gunpowder, premature explosion of in blasting rocks, 132

H.

Hansteen, Prof. on the magnetism of the earth, 145, 392.
Hays, A. A. on a Portable Hygrometer, 351
———— on the preparation of the Chlorate of Potash, 408
———— on a test for lead in Sulphuric Acid, 195
Heavenly bodies, resistance in space to the motion of, 389
Heidelberg store of minerals, 401
Hitchcock, Prof. on German collections of minerals, 400
Hough, Horatio G. on liquid Attraction, 86
Hudson's Bay, geology of, 11 Humboldt, expedition of, 405
Hydrophobia, cure for, 204 Hydrostatic lamp, 161
Hygrometer, new portable one, 351

I

Iceland, geology of, 15 Idocrase, new locality of, 145
Igneous origin of some Trap Rocks, 119 Indelible Ink, new kind, 172, 371
Ingalls, Lieut. on a luminous appearance of the sea, 209
Iodine, crystallization of, 168 Ioduret of Calcium and Potassium, 177
Ipecacuanha branca, analysis of, 385
Iron Mines, 203 Iron, native, crystallized, 140

K.

Kamschatka, geological notices of, 30

L.

Lamp, Hydrostatic 161 Lead in oil of vitriol, test for, 195
Leech bites, 392 Leeches, death of during storms, 186
Library of Useful Knowledge, 411 Library of Entertaining Knowledge, 411
Light, chemical action of, 376 Lightning, effects of at Charlestown, 193
Linear unit, 164 Liquid attraction, principles of, 86
Liquid Sulphurous Acid, 166 Litmus paper, 165
Long, Geo. W. on the origin of Springs, 336
Löwitz, H. Fitz, on a fusible Cement, 81 Lyceums in New England, 415

M.

Magnetic Variations, 198 Magnetism of the Earth, 145, 392
Malaria, essay upon, 300 Manufacture of Steel, 111
Marlborough minerals, 353 McKenzie River, geology of, 4
Meade, Dr. on a new locality of Zircon, 196 Medical Statistics, 188
Mercury, combination of with metallic wires, 375
Metal, a new one, 381 Metals, action of on inflammable gases, 168
Meteorite of Tennessee, analysis of, 326 Milk, pure, 378
Mine of Pasco, 43 Mineral Cement, 81
Mineralogy, new treatise on, 416
Mineral Waters, Prof. Daubeny's letter on, 407
Mineralogical Journey, 351 Missouri Lead Mines, Map of, 416
Mitchell, Prof. on safety tubes, 345 Mitchell, Dr. J. K. on sheet Caoutchouc, 399
Mole, natural history of, 386 Molecules, active ones, 390
Morphia, preservation of by alcohol, 384
Morton, Dr. S G. on the Fossils of New Jersey, 274
Mushrooms, gas from, 174 Mutual Instruction in Denmark, 394

N.

Native Iron crystallized, 140 Naval Sketches, 201
Necrology, 157 New Fane Minerals, 353
Nitric Acid, new test for, 176 Nöggerath, Prof. on compression of air, 38

O.

Ocean, luminous appearances in, 209
Organic Fossil remains in New Jersey, 274
Ossification of the Vitreous Humor, 186

P.

Pasco, silver mines of, 43 Patent claims, examination of, 193
Pectic acid, 179 Peron, on the temperature of the sea, 295
Peroxide of Hydrogen, 34 Peruvian antiquities, 116
Philosophical Transactions of the Royal Society of London, 361
Phosphori, solar, 170 Physics, elements of, 414
Plants, Prof Hitchcock's Catalogue of, 199
——— influence of chemical solutions on, 388
Plaster, on the setting of, 371 Plumbagine, a new vegetable substance, 385
Potash, action of on organic materials, 382 Potassium, 182
Potatoe flour in wheat, 173 Potatoes, preservation of, 188
Prince Regent's Inlet, geology of, 16
Printing, stereotype, the invention of, 161
Prussic Acid, antidote to, 174 Pyrophorus, 176

Q.

Quebec Lit. and His. Society, transactions of, 412

R.

Refining, instructions for, 177 Religious toleration in Russia, 192
Renwick, Prof. on the magnetism of the earth, 145
Review of the labors of Sir H. Davy, 217
——— Allen's Mechanics, 338
Rivero, M. de, sketch of the mines of Pasco, 43
Rock specimens and petrifactions for sale, 401 Rocky mountains, geology of, 2
Rosaic acid in urine, 385 Royal Society, transactions of, 361

S.

Sabine, Capt. on the magnetism of the earth, 145
Safety tubes, 345 Salts, number of, 184
Sand formation of New Jersey, 274 Saturn's ring, eccentricity of, 162
Scandinavians, early discovery of America by, 410
Sea, on the color of, 170 Sea, temperature of, 295
Seybert, Mr. analysis of meteorite by, 326
Shepard, C U. on ferro-silicate of manganese, 142
———— on new localities of minerals, 144
———— on native iron, 140
———— mineralogical Journey by, 353
Siberia, notices of, 24 Siamese twin brothers, 212
Silk, culture of, 202 Smoke disperser, 164
Sodium, 182 Solar phosphori, 170
Solar rays, electricity of, 391 Spherical trigonometry, elements of, 415
Springs, on the origin of, 336 Steel, manufacture of, 111
Steel plate, colored, 375 Stereotyping, origin of, 161
Strong, Prof. solution of a problem in Fluxions, 69, 329
Sulphurous Acid, liquid, 166

T.

Tabular Spar, new locality of, 145 Technology, elements of, 198
Temperature of the sea, 295
Test for vegetable and animal matter, 182
Thermometer, Register of, at Brooklyn, 409
Thorium, a new metal, 381 Tin, crystallization of, 206
Titaniferous iron ore, analysis of, 42
Tobacco, chemical examination of, 369 Tomatos, acid in, 115
Trap rocks, igneous origin of, 116 Turner's Chemistry, new edition of, 201

U.

Unit, linear, 164 United States, architecture in, 99, 249
Urinary Calculi, 190

V.

Vermin, destruction of by steam, 390

W.

Watren, Dr. on the Siamese Boys, 212 Watkins' Galvanic Battery, 162
Weather Glass, 187 Welther's Safety Tube, substitute for, 345
Wheat, potatoe flour in, 173 Wollaston, Dr. death of, 159
Wood, process for drying, 163 Wood, inhumed, 398

Z.

Zircon, new locality of, in New York, 196
———— in Vermont, 358
Zoological Weather Glass, 187
